My Little Love

What does it really mean to share your life with a dog?

My Little Love is Jude Laurén's story of twelve years with Buster, her spirited Shih Tzu who quickly became much more than a pet.

Their years together included the things pet parents know well: funny habits, daily routines, adventures, training, health decisions, growing older, caregiving, and eventually having to say goodbye.

Jude shares what she learned along the way, including the moments she got right, the ones she didn't, and the decisions that became harder as Buster grew older.

Part memoir and part guide for pet parents, My Little Love is about the whole experience of loving a dog, not only the loss that may come at the end.

It is for the person bringing home a new dog, the pet parent noticing a little more gray around the face, the caregiver making difficult choices, and anyone who still misses a dog they once loved.

Because loving them is the story. Saying goodbye is only one chapter.
